

URGENT! Time to replenish the shelves!

We've recently lost a couple of valued senior staff members who are now both national-level safety managers with 'blue-chip' household names. We've been sorry to see them go, but we're proud that we can develop our staff to these levels. As a result, and because we're also inundated with work, we're currently *urgently* recruiting more 'starter' consultants on the safety side of the business in order to fill the resulting gaps. We're interested in committed professionals with a particular interest in safety risk management and training.

We operate our ISO-registered risk management consultancy throughout the UK, Europe, US and the Far East and undertake consultancy & training in three main technical areas – business risk management, safety risk management and ergonomics. We undertake extensive work on behalf of both IOSH and the IRM and have a client-base of mainly large 'blue-chip' companies and government agencies. Look at www.humanapps.co.uk to see the work we do.

If you're interested to work for us, you'll have at least 2-3 years relevant safety experience. You'll ideally be Grad IOSH and, preferably, already have or be very close to CMIOSH status – but talk to us anyway if you've just 'got what it takes'. We're an IIP organisation so we'll expect (and be prepared to fund) a real commitment to ongoing learning.

You'll be in tune with the things we're trying to achieve in both safety and risk management. You'll be smart and able to think on your feet; you'll talk sense and be able to communicate ideas with energy and authority. You'll be able to articulate your arguments coherently and you *must* be able to write well.

You'll be based in the East Midlands and *must* live (or be prepared to move) within working distance of our base in Loughborough. You'll hold a full driving licence and be prepared to travel widely and regularly in the UK and overseas. Salary in the range £22-26k dependant on qualifications and experience. Expect to see your salary rise quickly if you deliver the goods. Pension and health package also included. Interested? Then get your CV to us as soon as possible. If we like what we see, we'll arrange to meet informally before moving to formal selection.
